INDEX TO VOLUME 2

	Page		Page
A		B	
Aberration of lenses, measurement of.....	685	<i>Barrows, W. P.</i> , The spotting of plated or finished metals.....	1085
Absorption, spectral, of monoazo dyes.....	501	<i>Bean, H. S., E. Buckingham, and P. S. Murphy</i> , Discharge coefficients of square- edged orifices for measuring the flow of air.....	561 1017
Aberration, spherical, measurement of.....	685	<i>Bennett, A. H.</i> , An interference method for determination of axial and oblique aberrations.....	685
Aberrations expressed as phase differences....	685	Beryllium, reflecting power.....	343
Air, flow of, measurement of.....	561	<i>Bicking, George W., O. G. Strieter, Merle B. Shaw and</i> , Experimental production of roofing felts.....	1001
Airplane cabins, soundproofing of.....	897	Bioluminescence of active nerve fiber.....	441
Analysis, gas.....	1145	Blue arcs of the retina.....	441
of fluorspar.....	671	<i>Boeckner, C., F. L. Mohler and</i> , Recombina- tion spectra of ions and electrons in caesium and helium.....	489
of spectra, Yt I and Yt II.....	733	<i>Bogue, R. H., F. W. Ashton, William Lerch and</i> , The sulphoaluminates of calcium.....	715
Angle, optimum refractive.....	909	Books, bulk of paper for.....	1039
Arc, mercury, in spectrophotometric analysis of sugar products.....	335	Brick, building (clay and shale).....	821
spectra, Yt I, analysis of.....	733	compression strength.....	821
<i>Ashton, F. W., R. H. Bogue, William Lerch and</i> , The sulphoaluminates of calcium.....	715	degree of firing.....	821
Astigmatism, effect on emergent wave front....	685	factors affecting strength.....	821
Astronomical objectives, aberrations of.....	685	method of forming.....	821
Audio-frequency piezo-electric generator.....	355	specification requirements.....	821
Antocollimating methods of prism refrac- tometry.....	909	strength of.....	821
Axial aberrations of lenses, measurement of...	685	transverse strength.....	821
Azo dyes, spectral absorption of.....	501	C	
B		Calcium, sulphoaluminates of.....	715
<i>Barrows, W. P.</i> , The spotting of plated or finished metals.....	1085	Calibration of sixty-five 35-yellow Lovibond glasses.....	793
<i>Bean, H. S., E. Buckingham, and P. S. Murphy</i> , Discharge coefficients of square- edged orifices for measuring the flow of air.....	561 1017	<i>Carson, F. T.</i> , Critical study of methods of measuring the bulk of paper.....	1039
<i>Bennett, A. H.</i> , An interference method for determination of axial and oblique aberrations.....	685	Caesium and helium recombination spectra....	489
Beryllium, reflecting power.....	343	Chlorides, differences across boundaries between solutions of mixed univalent.....	1137
<i>Bicking, George W., O. G. Strieter, Merle B. Shaw and</i> , Experimental production of roofing felts.....	1001	Chlorine, arc spectrum.....	1117
Bioluminescence of active nerve fiber.....	441	<i>Chrisler, V. L., and W. F. Snyder</i> , Sound- proofing of airplane cabins.....	897
Blue arcs of the retina.....	441	—, —, Transmission of sound through wall and floor structure.....	541
<i>Boeckner, C., F. L. Mohler and</i> , Recombina- tion spectra of ions and electrons in caesium and helium.....	489	Chromium, reflecting power.....	343
<i>Bogue, R. H., F. W. Ashton, William Lerch and</i> , The sulphoaluminates of calcium.....	715	Circle, use of uncalibrated divided, in refrac- tometry.....	909
Books, bulk of paper for.....	1039	Cobalt, reflecting power.....	343
Brick, building (clay and shale).....	821	<i>Coblentz, W. W., and R. Stair</i> , Reflecting power of beryllium, chromium, and several other metals.....	343
compression strength.....	821	Coefficients of discharge.....	561
degree of firing.....	821	Combustion analysis.....	467
factors affecting strength.....	821	improved apparatus for.....	467
method of forming.....	821	Coma, measurement of.....	685
specification requirements.....	821	Compounds of organic compounds, heats of...	359
strength of.....	821	Continuous spectrum X rays.....	837
transverse strength.....	821	Corrosion, accelerated tests on mild steel....	431
C		Corrosion by ultra-violet radiation.....	343
<i>Brode, Wallace R.</i> , The spectral absorption of certain monoazo dyes. I. The effect of posi- tion isomerism on the spectral absorption of methyl derivatives of benzeneazophenol.....	501	D	
Bronzes, bearing, with and without zinc.....	1017	<i>deBruin, T. L., C. C. Kiess and</i> , The arc spectrum of chlorine and its structure.....	1117
<i>Bruun, Johannes H., Mildred M. Hicks, Edward Washburn and</i> , Apparatus and methods for the separation, identification, and determination of the chemical constitu- ents of petroleum.....	467	Discharge coefficients.....	561
<i>Buckingham, E., P. S. Murphy, H. S. Bean and</i> , Discharge coefficients of square-edged orifices for measuring the flow of air.....	561	Distillation in current of inert gas.....	467
Building brick.....	821	of natural gases.....	1145
tests of.....	821		
Bulk of paper.....	1039		

	Page		Page
Direction shifts.....	1057	<i>Hoffman, J. I., G. E. F. Lundell and, The analysis of fluorspar.....</i>	671
Divided circle, use of uncalibrated, in refractometry.....	909	<i>Hoover, W. H., M. F. Peters, C. O. Fairchild and, A new determination of the melting point of palladium.....</i>	931
Dosage, X ray.....	771	<i>Hund, August, Note on piezo-electric generator for audio-frequencies.....</i>	355
Dyes, monoazo, spectral absorption of.....	501	<i>Hydrocarbons, combustion analysis of..... separation of.....</i>	467 467
E		I	
Earthquakes.....	963	<i>Ingberg, S. H., Fire resistance of hollow load-bearing wall tile.....</i>	1
Earth vibrations.....	963	<i>Index of refraction, measurement of.....</i>	909
Electromagnetic damping.....	963	<i>Infra-red, wave lengths of chlorine.....</i>	1117
magnification.....	963	<i>Insley, Herbert, W. L. Pendergast and, The service of refractory blocks in a small experimental gas tank.....</i>	453
Electron, structure of.....	837	<i>—, Determination of the source and the means of prevention of stones in glass.....</i>	1077
Entoptic phenomenon, the blue arcs of the retina.....	441	<i>Impact tube, theory of the.....</i>	561
Entectic temperatures by a conductance method.....	787	<i>Ionization potential, chlorine.....</i>	1117
Expansion, thermal, of tantalum.....	887	<i>Yt and Yt⁺.....</i>	733
Experimental production of roofing felts.....	1001	J	
Eye, excitation of the, by secondary stimulus.....	441	<i>Judd, Deane B., Least retinal illumination by spectral light required to wake the "blue arcs of the retina".....</i>	441
F		<i>—, K. S. Gibson, Geraldine K. Walker, Irvin G. Priest and, Calibration of sixty-five 35-yellow Lovibond glasses.....</i>	793
Fading, radio, causes.....	1057	K	
short-period.....	1057	<i>Kharasch, M. S., Heats of combustion of organic compounds.....</i>	359
<i>Fairchild, C. O., W. H. Hoover, and M. F. Peters, A new determination of the melting point of palladium.....</i>	931	<i>Kiess, C. C., and T. L. deBruin, The arc spectrum of chlorine and its structure.....</i>	1117
Felts, roofing, experimental production of.....	1001	L	
Finished metals, spotting of.....	1085	<i>Leviathan, alleged superior corrosion resistance of ship plate of.....</i>	431
Fire resistance of hollow load-bearing wall tile.....	1	<i>Lerch, William, F. W. Ashton, and R. H. Boque, The sulphoaluminates of calcium.....</i>	715
Floor structures, transmission of sound through wall and.....	541	<i>Light from active nerve fiber.....</i>	441
Flow of air, measurement of.....	561	<i>Liquefaction temperatures by a conductive method.....</i>	787
Fluorspar, analysis of.....	671	<i>Load-bearing wall tile, fire resistance of hollow.....</i>	1
Fractionation of mixtures.....	467	<i>Long-wear reception.....</i>	1201
methods and apparatus.....	467	<i>Lovibond glasses, 35-yellow, calibration of sixty-five.....</i>	793
<i>French, H. J., and E. M. Staples, Bearing bronzes with and without zinc.....</i>	1017	<i>Lundell, G. E. F., and J. I. Hoffman, The analysis of fluorspar.....</i>	671
G		M	
Gas analysis.....	1145	<i>McBurney, J. W., The compressive and transverse strength of brick.....</i>	821
natural.....	1145	<i>Magnetic storms, relation of, to radio reception.....</i>	1201
Gasoline, natural.....	1145	<i>testing, thermomagnetic analysis.....</i>	659
Generator, piezo-electric, for audio-frequencies.....	355	<i>Measurement at air flow.....</i>	561
<i>Gibson, K. S., Deane B. Judd, Geraldine K. Walker, Irvin G. Priest and, Calibration of sixty-five 35-yellow Lovibond glasses.....</i>	793	<i>X-ray.....</i>	771
Glass, prevention of stones in.....	1077	<i>Measuring bulk of paper.....</i>	1039
tank refractories.....	453		
small experimental.....	453		
Goniometrical requirements for precise prism refractometry.....	909		
H			
<i>Hamm, H. A., Charles W. Schoffstall and, A multiple-strand test for yarns.....</i>	871		
Heats of combustion of organic compounds.....	359		
Helium and caesium recombination spectra.....	489		
<i>Hicks, Mildred, Johannes H. Bruun, Edward W. Washburn and, Apparatus and methods for the separation, identification, and determination of the chemical constituents of petroleum.....</i>	467		
<i>Hidner, Peter, Thermal expansion of tantalum.....</i>	887		

	Page
<i>Meggers, William F., and Henry Norris Russell</i> , An analysis of the arc and spark spectra of yttrium, (Yt I and Yt II).....	733
Melting points by a conductance method.....	787
of palladium.....	931
Mercury arc in spectrophotometric analysis of sugar products.....	335
vapor.....	467
poisoning from.....	467
Metals, spotting of plated or finished.....	1085
Micrometer errors in prism refractometry.....	909
<i>Mohler, F. L., and C. Boeckner</i> , Recombination spectra of ions and electrons in caesium and helium.....	489
Molecular weights.....	703
determination of, for vapors at low pressures.....	703
Monazo dyes, spectral absorption of.....	501
<i>Murphy, P. S., E. Buckingham, H. S. Bean and</i> , Discharge coefficients of square-edged orifices for measuring the flow of air.....	541

N

Natural gas.....	1145
gases, distillation of.....	441
Nerve fiber, emission of light from.....	441
<i>Nicholas, Warren W.</i> , Continuous spectrum X rays form thin targets.....	837
Nickel, reflecting power of.....	343

O

Oblique aberrations of lenses, measurement of.....	685
Organic compounds, heats of combustion of.....	359

P

Palladium, melting points of.....	931
Paper bulk.....	1039
<i>Parkinson, T.</i> , Some observations of short-period radio fading.....	1057
<i>Pendergast, W. L., and Herbert Insley</i> , The service of refractory blocks in a small experimental glass tank.....	453
<i>Peters, H. H., and F. P. Phelps</i> , A technical method of using the mercury arc to obtain data at wave length 560 $m\mu$ in the spectrophotometric analysis of sugar products.....	335
<i>Peters, M. F., W. H. Hoover, C. O. Fairchild and</i> , A new determination of the melting point of palladium.....	931
Petroleum.....	467
effect of heat on cracking of.....	467
methods and apparatus for fractionation of.....	467
<i>Phelps, F. P., H. H. Peters and</i> , A technical method of using the mercury arc to obtain data at wave length 560 $m\mu$ in the spectrophotometric analysis of sugar products.....	335
Piezo-electric generator for audio frequencies.....	355
Plated metals, spotting of.....	1085
<i>Priest, Irwin G., Deane E. Judd, K. S. Gibson, and Geraldine K. Walker</i> , Calibration of sixty-five 35-yellow Lovibond glasses.....	793
Prism-angle measurement, tolerances in.....	909
Prism refractometry, goniometry of.....	909

R

Radiation, visible, from active nerve fiber....	441
Radio-direction shifts.....	1057
Radio fading.....	1057
polarization of waves.....	1057
reception from Europe.....	1201
wave propagation, relation of, to terrestrial magnetism.....	1201
<i>Rawdon, Henry S.</i> , Laboratory corrosion tests of mild steel with special reference to ship plate.....	431
Reflecting power in ultra-violet.....	343
Refractive angle, tolerance in measuring.....	909
Refraction index, measurement of.....	909
Retina, blue arcs of.....	441
secondary excitation in.....	441
Roofing felts, experimental production of.....	1001
<i>Russell, Henry Norris, William F. Meggers and</i> , An Analysis of the arc and spark spectra of yttrium (Yt I and Yt II).....	733

S

<i>Sanford, Raymond L.</i> , Apparatus for thermomagnetic analysis.....	659
<i>Schoffstall, Charles W., and H. A. Hamm</i> , A multiple strand test for yarns.....	871
<i>Shaw, Merle B., George W. Bicking, and O. G. Strieter</i> , Experimental production of roofing felts.....	1001
<i>Shepherd, Martin</i> , The accurate determination of the gasoline content of natural gas and the analytical separation of natural gases by isothermal fractional distillation.....	1145
Ship plate, corrosion of.....	431
Silver, reflecting power.....	343
Seismometer.....	963
<i>Smith, Edgar Reynolds</i> , Potential differences across the boundaries between solutions of mixed univalent chlorides.....	1137
—, <i>Edward W. Washburn and</i> , Note on an electrical conductance method for determining liquefaction temperatures of solids.....	787
<i>Snyder, W. F., V. L. Christer and</i> , Soundproofing of airplane cabins.....	897
—, —, Transmission of sound through wall and floor structures.....	541
Sound, transmission of, through wall and floor structures.....	541
Soundproofing of airplane cabins.....	897
Spark spectra, Yt II, analysis of.....	733
Spectra, (recombination), of caesium and helium.....	489
Yt I and Yt II, analysis of.....	733
Spectral absorption of monazo dyes.....	501
Spectrometer, use of, in prism refractometry.....	909
Spectrophotometric analysis in sugar products.....	335
Spectrum of chlorine.....	1117
Spherical aberration, measurement of.....	685
Spotting of plated or finished metals.....	1085
<i>Stair, R., W. W. Coblenz and</i> , Reflecting power of beryllium, chromium, and several other metals.....	343
<i>Staples, E. M., H. J. French and</i> , Bearing bronzes with and without zinc.....	1017

	Page		Page
Steel, results of accelerated corrosion tests on mild.....	431	W	
Stellite, reflecting power.....	343	Wall and floor structures, transmission of sound through.....	541
Stills for distillation in current of inert gas.....	467	Wall tile, fire resistance of hollow load-bearing.....	1
vacuum for low-temperature distillation.....	467	<i>Washburn, Edward W., Johannes H. Bruun, and Mildred Hicks</i> , Apparatus and methods for the separation, identification, and determination of the chemical constituents of petroleum.....	467
Stones in glass, prevention of.....	1077	—, Determination of molecular weights in the vapor state from vapor pressure and evaporation data.....	703
<i>Strieter, O. G., George W. Bicking, Merle B. Shaw and</i> , Experimental production of roofing felts.....	1001	—, and <i>Edgar R. Smith</i> , An electrical conductance method for determining liquefaction temperatures of solids.....	787
Structures, transmission of sound through wall and floor.....	541	Weights, molecular determination of, for vapors at low pressures.....	703
Sugar, distillation of.....	467	<i>Wenner, Frank</i> , A new seismometer equipped for electromagnetic damping and electromagnetic and optical magnification, (theory, general design, and preliminary results).....	963
products, spectrophotometric analysis of, using the mercury arc.....	335	<i>Wymore, Ivy Jane</i> , Relation of radio wave propagation to disturbances in terrestrial magnetism.....	1201
Sulphoaluminates of calcium.....	715	X	
T		X-ray continuous spectra.....	837
Tank, glass, small experimental.....	453	spectral distribution of.....	837
Tantalum, thermal expansion of.....	887	theory for.....	837
<i>Taylor, Lauriston S.</i> , The precise measurement of X-ray dosage.....	771	dosage.....	771
Test for yarns.....	871	measurement.....	771
Testing, magnetic thermomagnetic analysis.....	659	Y	
Tests of building brick.....	821	Yarns, a multiple strand test for.....	871
Thermal expansion of tantalum.....	887		
Thermomagnetic analysis, apparatus for.....	659		
Thickness and bulk of paper.....	1039		
Tile, fire resistance of hollow load-bearing wall.....	1		
<i>Tilton, L. W.</i> , Prism refractory and certain goniometrical requirements for precision.....	909		
Tolerances in prism-angle measurement.....	909		
Transmission of sound through wall and floor structures.....	541		
U			
Ultra-violet radiation.....	343		
reflecting power in.....	343		

BUREAU OF STANDARDS JOURNAL OF RESEARCH

PARTIAL CONTENTS OF VOLUME 1—Continued

December, 1928 (Vol. 1, No. 6)—Continued

- RP34. Reaction of water on calcium aluminates. Price 25 cents.
RP35. Unidirectional radiobeacon for aircraft. Price 10 cents.
RP36. Studies of machines for extruding clay columns. Augers spacer and dies for brick machines. Price 15 cents.

CONTENTS OF VOLUME 2

January, 1929 (Vol. 2, No. 1)

- RP37. Fire resistance of hollow load-bearing wall tile. Price 75 cents.

February, 1929 (Vol. 2, No. 2)

- RP38. A technical method of using the mercury arc to obtain data at wave length 560 $m\mu$ in the spectrophotometric analysis of sugar products. Price 5 cents.
RP39. Reflecting power of beryllium chromium and several other metals. Price 5 cents.
RP40. Note on a piezo-electric generator for audio-frequencies. Price 5 cents.
RP41. Heats of combustion of organic compounds. Price 15 cents.
RP42. Laboratory corrosion tests of mild steel, with special reference to ship plate. Price 5 cents.
RP43. Least retinal illumination by spectral light required to evoke the "blue arcs of the retina." Price 5 cents.
RP44. The service of refractory blocks in a small experimental glass tank. Price 15 cents.

March, 1929 (Vol. 2, No. 3)

- RP45. Apparatus and methods for the separation, identification, and determination of the chemical constituents of petroleum. Price 10 cents.
RP46. Recombination spectra of ions and electrons in caesium and helium. Price 5 cents.
RP47. The spectral absorption of certain monoazo dyes. I. The effect of position isomerism on the spectral absorption of methyl derivatives of benzeneazophenol. Price 15 cents.
RP48. Transmission of sound through wall and floor structures. Price 10 cents.
RP49. Discharge coefficients of square-edged orifices for measuring the flow of air. Price 20 cents.

Research papers are available as separates for purchase from the Superintendent of Documents
United States Government Printing Office, Washington, D. C.

[Continued on page 4 of cover]

BUREAU OF STANDARDS JOURNAL OF RESEARCH

CONTENTS OF VOLUME 2—Continued

April, 1929 (Vol. 2, No. 4)

- RP50. Apparatus for thermomagnetic analysis. Price 10 cents.
RP51. The analysis of fluorspar. Price 5 cents.
RP52. An interference method for the determination of axial and oblique aberrations. Price 10 cents.
RP53. Determination of molecular weights in the vapor state from vapor pressure and evaporation data. Price 5 cents.
RP54. The sulphoaluminates of calcium. Price 10 cents.
RP55. An analysis of the arc and spark spectra of yttrium (Yt I and Yt II). Price 10 cents.
RP56. The precise measurement of X-ray dosage. Price 10 cents.
RP57. Note on an electrical conductance method for determining liquefaction temperatures. Price 5 cents.
RP58. Calibration of sixty-five 35-yellow Lovibond glasses. Price 10 cents.
RP59. The compressive and transverse strength of brick. Price 5 cents.

May, 1929 (Vol. 2, No. 5)

- RP60. Continuous spectrum X rays from thin targets. Price 10 cents.
RP61. A multiple-strand test for yarns. Price 10 cents.
RP62. Thermal expansion of tantalum. Price 15 cents.
RP63. Soundproofing of airplane cabins. Price 15 cents.
RP64. Prism refractometry and certain goniometrical requirements for precision. Price 10 cents.
RP65. A new determination of the melting point of palladium. Price 10 cents.
RP66. A new seismometer equipped for electromagnetic damping and electromagnetic and optical magnification (theory, general design, and preliminary results). Price 15 cents.

Research papers are available as separates for purchase from the Superintendent of Documents
United States Government Printing Office, Washington, D. C.
